Elena Liao.
I'm Elena Liao, I study in Spain, Madrid in the school Inmaculada Concepción.
I was born in Madrid but my parents are Chinese.
I am in 4th ESO and I am doing the American baccalaureate because in the future I would like to go to America to study. It's like a course baccalaureate in my class.
At the beginning it is more difficult but when you have done like 2 lessons the rest is easier.
It is an online course so you can do it when you want, most of the time I do it at home.
I think it will help me a lot in the future.
I'm happy to do this.

Hi! My name is Borja. I am sixteen years old. I live in a city near Valencia in Spain called Alzira that in my opinion is a good city with a lot of history behind.
About my studies, I am studying first of Bachillerato that is equivalent to 11th grade in United States and I am getting very good marks in all the subjects that I do.
I am enjoying the American High School programme a lot, I thought that it was complicated at first, but I got used to it and I think that I progress a little bit more every day.
**I am doing this online course because, in the future, when I finish my high school studies, I would like to go to study abroad because I could get a lot of new knowledge of a new culture, ideas, customs...
In conclusion, I like this American High School programme and I will strive to get the best possible results.**

Hi!
I'm Maria Muñoz and I'm 18 years old. I live in Madrid, next to my school Inmaculada Concepción where I have studied since I was a kid. In my free time I like going out with my friends, doing sports and watching series. Another thing I love to do is travelling. In my opinion this makes you progress and understand other cultures. In my opinion is a good form to be with your family and enjoy new things. In addition like learning languages, so this is one of the reasons I'm here. In this form of studying English is a brilliant idea, you improve your skills, you obtain self-reliance and you learn to organize well. If you have this certificate, you will have more open doors for the future. I hope this year I can learn but also enjoy it!

When I was a kid, I used to get the letter that my dad would write to me from his school in Puerto Rico. I was very happy to receive it because I knew that my dad was thinking about me.
